X-Ray News (XRN) is published quarterly. A Subscription to X-Ray News provides 12 CE credits each calendar year. The continuing education credits earned by reading the Direct Readings and answering the quizzes are for Limited X-Ray license renewal only. Each person obtaining XRN credits must have their own subscription.

Welcome to X-Ray News! X-ray News started as a Continuing Education publication for Tennessee Limited X-ray Operators in 1995. The articles are specifically written for limited x-ray operators. We are now branching out to other states that are interested in our product. Several Nebraska limited radiographers have recently started using our publication for their continuing education requirements.

All persons holding a Nebraska Limited Radiographer license are required to obtain 24 hours of continuing education (CE) credit hours for license renewal.

Our most current titles are listed below. Choose the issues you need to make 12 or 24 credits and list them on the front of this order form. If you need less than 12 credits, you can go to our website at www.x-raynews.com to order Single Issues.

DIRECT READING	Issue	Year	#Credits	Article Title
DR-096	V25N1	2019	4	Patient Care in Radiology Today
